

It's always exciting to start a new year and get inspired and activated with the plan of God for our lives.

What are you believing God to do in you, for you and through you? You can hear God's direction for yourself. A plan designed especially for you, custom made by God to fit you and what He wants and knows you are ready for! Woohoo! The Bible is God speaking directly to us and it is full of direction and wisdom and the keys and power to accomplish all that is in our hearts to do! So awesome, right? It's time to start walking it out in faith. See yourself doing it! See yourself succeeding in all God has planned for you!

We are no exception to the new year excitement that comes with the question of what is next?

As we always do, we take time to seek God. We get quiet and still long enough to hear and listen and to meditate on his words. One thing is to hear another is to listen. We hear but many times people don't attend to what they hear, it is just sound, words. When we listen, we focus! We attend to His words! "My son, give attention to my words; Incline your ear to my sayings." Proverbs 4:20 NKJV

This past year we fulfilled the plan God placed in our hearts to start a stateside church. We prepared and we listened to every instruction as best as we knew how and now a year later we are a growing church in revival in Brownsville Texas. Even though many voices expressed their concern or their doubt that we could head up two churches in two different countries, we knew what we heard God speak to our hearts. In the process of taking steps of faith and walking out the plan, God blessed us with the tools, the team and the resources necessary. He will do the same for you!

We have a plane at our disposal to fly us between both countries and God provided that so supernaturally. We didn't have to purchase the plane, we are not responsible for maintenance or upkeep, we just have to pay the pilot (who already is on our payroll) and the fuel. Our son in law took the necessary steps to get his pilot's license so we have a Pilot! Even in Mexico, God connected our son in law with an experienced pilot who offered to teach him the ins and outs of flying over mountains and help him with the airplane hanger which is difficult to obtain. We can now fly directly into our city of Pachuca. God is so good! NEVER BE FEARFUL OF HIS PLANS FOR YOU! They are perfect and you will say, it is possible with God!

So what exciting things are coming up?

Soon to come: We were given 2.2 acres of land in Brownsville Texas and are taking a part of the property for our stateside offices! Our ministry has been expanding and we require stateside offices. We have offices in Mexico but not in the states. We will be sharing the plans and the cost with you soon because we want to make you, our partner, aware and a part of what God is doing through this ministry.

The church in Brownsville is also waiting on the city to approve our tax free status to begin building a children's wing to the existing church building on the property. Children are our future and we need classrooms and areas for them to play and worship Jesus! This is also excellent rich ground to sow into, future ministers, entrepreneurs, teachers, doctors, Christian politicians, etc. I was once a child who would somehow end up outside the classroom door having to explain to my Pastor why I was there or under the church benches scratching my name off the varnish and running to the altar to get saved every time there was an altar call until I was old enough to truly understand what I was doing and now I travel the world sharing Jesus! Children's ministry is very special to my heart.

Last year because of the church launch I traveled very little. Things are now in place to enable me to begin to travel to more places that have a need for the message of faith, grace and the move of the Holy Spirit. Several Pastors have reached out to me wanting pastoral care and mentoring but I have held back on this although I know it is a grace and a calling upon my life to pastor Pastors however I could not attend to them properly while trying to establish and grow a new church plant so I held back. This year I am ready to attend to these pastors and go and visit their churches and see how we can better help serve them.

This year we also want to provide a prayer line ministry for our supporters and those in need of prayer. I have personally called several people who through our website have requested prayer and they don't believe it's me at first until I am able to reassure them I am who I say I am. One person asked me, the real Jerry Garcia? I love to pray for people and hear their expression of excitement when they get instantly healed! Wish I could see their face which is awesome to see!

Our ministry has grown and we are watching in amazement of all that God has been doing through our ministry.

We can't do it alone and do not wish to either. My wife Ernie and I have been doing a lot of the everyday jobs required to run a ministry but we realize we can't keep up alone with the demand from people, pastors, churches, ministry and our two congregations which brings us to our next big step of faith! Employees and volunteers! We have to expand but in order to do so we have to have the right people to help us get where we need to be and finding the right people for those areas is a faith project. Help us to pray for a good fit for us on employees and volunteers. Our main needs are for: graphic designer, video and sound, accounting and office personnel. We need to take this faith step and believe not only for the staff necessary but for the finances to employ them which takes us to our next project for 2023, a greater base of financial partners.

We have lacked in our ability to promote our ministry because of our limited and wrong thinking. Thinking humility is not drawing attention to one self or that humility involves avoiding promotion is utterly wrong! We have learned what was behind our thinking was more of a false sense of pride than anything else. Well we got good news! We learned and we are moving on!

God needs each of us to carry out His vision and His plan and He needs us to be willing and be unafraid to let others help us to do so.

This year we are believing for an increase in our support base of not a few partners but for a substantial increase that will help us supply staff wages, office building, crusade funding and anything this ministry requires to fulfill our part of God's plan and do it without fear or false humility. We are going for it! Woohoo!

Thank you dear partner by helping us with all these exciting projects and plans for God. We need your prayers and your financial support. We heard a ministry friend say, you sow where you want to go and we are certainly doing that. Let's make 2023 a year of great and mighty testimonies for God! Together let's reach our goals and plans of God.

Dios te bendiga, Jerry and Ernie Garcia
